SEC File No. 270-482, OMB Control No. 3235-0540

Notice is hereby given that pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et. seq.) ("PRA"), the Securities and Exchange Commission ("Commission") has submitted to the Office of Management and Budget ("OMB") a request for approval of extension of the existing collection of information provided for in Rule 17a-25 (17 CFR 204.17a-25) under the Securities Exchange Act of 1934 (15 U.S.C. 78a et. seq.).

Paragraph (a)(1) of Rule 17a-25 requires registered broker-dealers to electronically submit securities transaction information, including identifiers for prime brokerage arrangements, average price accounts, and depository institutions, in a standardized format when requested by the Commission staff. In addition, Paragraph (a)(3)(c) of Rule 17a-25 requires broker-dealers to submit, and keep current, contact person information for electronic blue sheets ("EBS") requests. The Commission uses the information for enforcement inquiries or investigations and trading reconstructions, as well as for inspections and examinations.

The Commission estimates that it sends approximately 7,697 electronic blue sheet requests

per year to clearing broker-dealers that in turn submit an average 124,912 responses.¹ It is estimated that each broker-dealer that responds electronically will take 8 minutes, and each broker-dealer that responds manually will take 1½ hours to prepare and submit the securities trading data requested by the Commission. The annual aggregate hour burden for electronic and manual response firms is estimated to be 8,114 ($59,958 \times 8 \div 60 = 7,994$ hours) + ($80 \times 1.5 = 120$ hours), respectively.² In addition, the Commission estimates that it will request 8 broker-dealers to supply the contact information identified in Rule 17a-25(c) and estimates the total aggregate burden hours to be 2. Thus, the annual aggregate burden for all respondents to the collection of information requirements of Rule 17a-25 is estimated at 8,116 hours ($7,994 + 120 + 2$).

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information under the PRA unless it displays a currently valid OMB control number.

The public may view background documentation for this information collection at the following website: www.reginfo.gov. ¹ A single EBS request has a unique number assigned to each request (e.g. "0900001"). However, the number of broker-dealer responses generated from one EBS request can range from one to several thousand. EBS requests are sent directly to clearing firms, as the clearing firm is the repository for trading data for securities transactions information provided by itself and correspondent firms. Clearing brokers respond for themselves and other firms they clear for. There were 124,912 responses during the 25 month period for an average of 4,996.5 responses per month or an average of 59,958 annual responses.

² Few of respondents submit manual EBS responses. The small percentage of respondents that submit manual responses do so by hand, via email, spreadsheet, disk, or other electronic media. Thus, the number of manual submissions (80) has minimal effect on the total annual burden hours.
